Our Goals

It is the goal of our school to discover and develop the abilities of each student; to help reach his or her full potential - both as a dancer and a person. Dancing provides children with an outlet for self-expression. It also builds confidence, coordination, and discipline. In addition to the physical benefits, dancing has long lasting effects on children as they continue to grow and mature throughout life.

#### **DANCE (dans)**

A theatrical work or entertainment in which a choreographer has expressed his ideas in group and solo dancing to a musical accompaniment with appropriate costumes, scenery, and lighting.

Dance is what happens between the steps and the notes.

It is the voice of the individual. It is expressive movement.

Inner Dialog is what happens inside/within the individual. -Gail Grant

---

You don't wake up one morning and say,  
I will become a dancer.

You wake up one morning and realize  
You've been a dancer all your life...  
And say to yourself, I am a dancer.

I am Dance! -Susan Botney
