

Salem Dance Network SUMMER INTENSIVES

Students are encouraged to continue their dance education throughout the summer. This helps maintain coordination, strength, flexibility, & technique. Often after a long absence, students return rusty and it takes the first half of the new dance season to get them back in shape, -Thus putting a halt on their progression process. Note: the process to becoming a dancer is a long and slow one. We are not just learning steps, we are developing bodies strong & suitable enough to dance.
